

**SESSION 1:
Applications of Ozone, a clean Oxidant, in culturing of Foods,
their processing and general nutritional Hygiene**

Sub-session 1: Conditioning of Food

Moderators: Dr. Rip. G. Rice (USA) & Dr. Hirofumi Takahara (Japan)

Ozone for Plant Pathological Applicationsp. 10
V. Mohan, Kirit Patel, K. Padmanabhan and S. Ananthi (India)

The use of portable Ozone Generators for at-home (kitchenary) applicationsp. 23
S. Ananthi, K. Padmanabhan, A.P. Mathews and K.K. Panda (USA and India)

Recent developments in Ozone Water and wastewater treatment for food and agricultural applications in the USAp. 37
Dr. Rip. G. Rice (USA)

Ozone: contribution in food industry from Japan.....p. 53
Dr. Shigezo Naito (Japan)

Short Comments on the EU Directive 98/8/EC concerning the placing of biocidal products on the market: place of Ozonep. 67
Dr. Willy J. Masschelein (Belgium)

Statistical Modelling of Bromate Content in Drinking Water Factories using Ozonep. 87
B. Parinet, B. Legube, S. Maillet (France)

Moderators: Prof. Martin Jekel (Germany) and Dr. Steve Lambert (UK)

Influence of Different Ozone Doses on Diuron Removal in drinking water by absorption on powered activated carbonp. 99
L. Cordier, M.C. Gérard, J.P. Barthelemy (Belgium)

Repair Potential of Selected Microorganisms following UV Irradiation used in drinking water treatmentp. 113
J.L. Zimmer, R.M. Slawson, P.M. Huck (Canada)

Sub-session 2: News on Ozone Generation Systems

Moderators: Prof. A. Dombi (Hungary); Dr. Kl. Hagen (Germany); P. Overbeck (USA)

Low cost and small Scale Applications for Ozonation and Novel Electrode Systems for In-Situ integral Ozonatorsp. 131
A.P. Mathews, S. Ananthi, K. Padmanabhan, K. Chandrasekharan, K.K. Panda, K. Patel and W. Kim (India & USA)

Large Ozone Systems: The World's largest Municipal drinking Water Ozone plants for Dallas, Texas.....p. 141
R. Edmonson, L. Smith, L. Gurnari and W. Lobo (USA)

**SESSION 2:
Ozone: a clean Oxidant in Waste Water Treatment,
Sludge conditioning and Pulp and Paper Bleaching**

Moderators: Prof. J. Kallas (Finland) & Prof. P. Huck (Canada)

Study of Competition for Ozone between soluble and particulate Matter during activated Sludge Ozonation p. 155
Damien Cesbron, Stéphane Déléris, Hubert Debellefontaine, Michel Roustan, Etienne Paul (France)

Ozonation and activated Sludge combined Process. An innovative process for the reduction of sludge production in activated sludge plant: BIOLYSIS[®] 0 p. 171
Stéphane Déléris, Valéry Geaugey, Thierry Lebrun (France)

Injection of ozone to reduce sludge in an industrial Waste Water Treatment Plant p. 181
J. Schwerdt, J. Parmentier (Switzerland & Belgium)

Ozone/UV/H₂O₂ – Single processes or AOP-applications for Wastewater treatment p. 189
A. Ried, J. Mielcke, M. Kampmann (Germany)

Enhanced reaction rate in an in-Situ Ozone Generator and Reactor for Wastewater Treatment p. 203
K.K. Panda, A.P. Mathews, S. Ananthi and K. Padmanabhan (India & USA)

Moderators: Dr. J. Nawrocki (Poland), Dr. E. Chauveheid (Belgium)

Catalytic Ozonation for advanced Treatment of Industrial Wastewaters p. 217
Sylvie Baig, Françoise Petitpain (France)

Dye's Colour Removal by O₃ and H₂O₂: some Aspects and Problems p. 231
Ryszard Tosik (Poland)

Aerobic Bio-oxidation combined with Ozonation in Pulp and Paper Mill Wastewater and phenolic Wastewater Treatment p. 247
I. Kamenev, A. Viiraja, J. Kallas (Finland)

Moderators: Prof. B. Legube (France), Prof. Joon Woon Kang (Taiwan)

Advanced Effluent Treatment in the Pulp and Paper Industry with a combined Process of Ozonation and fixed Bed Biofilm Reactors..... p. 265
Pierre-André Liechti, Rudolf Jenny, Christian H. Möbius, Alfred Heible, Wolfgang Schlayer (Switzerland & Germany)

State of the Art Ozone Systems for Pulp bleaching at VCP Jacarei and Paper Mill Effluent Treatment at Lang Paper Mill p. 283
Stephan. Rau, Marco Rosner, O. Lange (Germany)

SESSION 3: Ozone, a clean oxidant, and related Processes in Water treatment

Sub-session 1: Ozone, a clean Oxidant for Ultrapure-Water

Moderators: Dr. P. Uhlig (France), Dr. Huei Tarnng Liou (Taiwan)

Evaluation of theoretical Concepts in the Removal of organic Contamination by Ozone/DI-Water in Semiconductor cleaning Processesp. 285
H. Vankerckhoven, F. De Smedt, K. Vandersmissen, L. Nyns, M.M. Heyns, C. Vinckier (Belgium)

Study of Oxidation of Semiconductor Wastewater containing methylmethacrylate by Ozone and Ozone/UV Treatment.....p. 299
Hwong-Wen Ma, Neng-Chou Shang, Chi-Wie Lee, Yue-Hua Yu (Taiwan)

A portable Ozone Generators for Use in Semiconductor Industriesp. 309
K. Patel, S. Ananthi, K. Padmanabhan, K. Chandrasekharan (India)

Sub-session 2: Ozone as a clean Oxidant related to UV and photochemical Processes

Moderators: Dr. J.C. Kruithof (The Netherlands), K. Elsenhans (Germany)

Treatment of groundwater contaminated with Ferrocyanides using the oxidation Process UV/H₂O₂.....p. 321
Dorota Olejnik, Cédric Féliers, Paulina Cervantes (France)

Removal of Monochloroacetic acid in water by advanced Oxidation based on Ozonation in the Presence of TiO₂ irradiated at > 340 nm.....p. 335
D. Mas, P. Pichat, Ch. Guillard, F. Luck (France & Germany)

Oxidative Removal of humic Acids with Heterogeneous catalytic Ozonation using illuminated Titanium Dioxide Suspensions.....p. 351
A. Kerc, M. Bekbolet, A. M. Saatci (Turkey)

Heterogeneous photocatalytic Decomposition of chlorinated Ethenes as indoor Pollutants.....p. 369
M. Hegedüs, A. Dombi (Hungary)

Non-polar bonded Alumina Phase as a Catalyst for Ozonation Processp. 383
B. Kasprzyk-Hordern, A. Dabrowska, J. Nawrocki (Poland)

The organic by-products Formations upon the oxidation of natural organic Matter Fractions with Ozone and Chlorine Dioxidep. 397
J. Swietlik, A. Dabrowska, U. Raczynk-Stanislawiac, S. Bilozor, W. Ilecki, J. Nawrocki (Poland)

Put in Standards and recycling of Waters by the catalytic Ozonation Process: Oxidation of organic Molecules refractory to Ozonation.....p. 413
F. Pontlevoy, N. Karpel V. Leitner, B. Legube (France)

Sub-session 3: Ozone as such, a clean Oxidant and Ozone-catalytic Processes in Water Treatment

Moderators: Z. Do-Quang (France), Dr. B. Wricke (Germany)

Best dissolved Ozone in a partial-flow System and minimized Energy Consumptionp. 421
Kurt Elsenhans (Germany)

2,4-Xylidine degradation with Ozonation: mass transfer and reaction kineticsp. 435
J. Reinik, K. Jacobsson, J. Kallas (Finland)

Decomposition of the Model Mixture of Phenol, 4-chlorophenol and 2,4-chlorophenol in aqueous Solutions by Ozonep. 447
T.I. Poznyak, J. L. Vivero (Poland and Mexico)

Pilot test for treatment of groundwater by O₃/H₂O₂ process in Moosbrunn waterworksp. 461
M. Werderitsch (Austria)

Efficiency of Ozonation and AOP for MTBE Removal in Waterworksp. 471
Ch. Baus, F. Sacher, H.J. Brauch (Germany)

Moderators: Dr. A. Kerc (Turkey), L. Pawlowski (Germany)

AOP Comparisons for refractory COD Eliminationp. 485
M. Coste, D. Olejnik, C. Batbedat, C. Féliers, P. Cervantes (France)

Catalytic Ozonation for Mineralization of organic Compoundsp. 501
V. Fontanier, V. Farines, J. Albet, S. Baig, J. Molinier (France)
